Stormwater Permit Application Medium Project

Asotin County Regional Stormwater Program (ACRSP) requires a Medium Project Permit for all land disturbing activities greater than or equal to 5,000 sq. ft. and less than one (1) acre. This Permit Application and Erosion and Sediment Control (ESC) Plan must be approved by ACRSP, and all applicable fees must be paid, **before** land disturbing activities begin.

Date:		Submitted by:	
Project Address/Driving Directions:			
Applicant/Owner Name and Address:		Phone/Email:	
Contractor Name and Address:		Phone/Email:	
Dimensions of land disturbing activity (i.e., project footprint)		Proposed Start Date:	Proposed End Date:
ft x ft = sq ft			
Permit Size:		Select One:	Amount Due:
5,000 ft ² - 10,000 ft ² disturbed area		<input type="checkbox"/>	\$125
10,001 ft ² - 20,000 ft ² disturbed area		<input type="checkbox"/>	\$175
20,001 ft ² - 30,000 ft ² disturbed area		<input type="checkbox"/>	\$250
30,001 ft ² - 43,559 ft ² disturbed area		<input type="checkbox"/>	\$350

Please send the Stormwater Permit fee to:

Asotin County Regional Stormwater Program
P.O. Box 160
Asotin, WA 99402

Please make checks payable to **ACRSP**.

APPLICATIONS NOT FULLY COMPLETED WILL NOT BE ACCEPTED

General Requirements

- The Regional Stormwater Program may require any land disturbing project of any size obtain a local stormwater permit and be subject to developing an ESC Plan or Stormwater Pollution Prevention Plan (SWPPP) if any special conditions exist.
- A plan may require a performance surety if permanent stormwater facilities are involved.
- The ESC Plan and inspection records shall be maintained at the site during the progress of work.

All land disturbing projects are required to comply with the Construction and Post-Construction Stormwater Control and Regulations Ordinance (commonly known as the Stormwater Construction and Post-Construction Ordinance)

(County Ord. 10-26, Clarkston City Ord. 1466, Asotin City Ord. 2010-754).

Application Requirements and Process:

1. Completed application and all applicable fees submitted to the Regional Stormwater Program.
2. ESC Plan must be submitted with the application. Applicant may request site visit prior to ESC Plan development.
3. Schedule site visit and meeting to review application and ESC Plan.
4. Written review and request for changes will be submitted to Applicant.
5. Any changes needed on required plans and comments provided by Regional Stormwater Program Staff must be incorporated into updated plans prior to final approval.
6. Approval of the Stormwater Permit Application - Medium Project.

These requirements do not replace or supersede existing requirements for subdivisions or other development review. All other requirements must be met.

Notice of Project Commencement: The applicant must notify the Regional Stormwater Program before the commencement of land disturbing activities.

Description of project (i.e., grading to install shop, home, installing pipeline, etc.) and ESC Plan.

Describe the best management practices that will be used to control sediment and other pollutants from entering the stormwater system from your project site. Use General Requirements as guide for ESC plan. Additional space for this section can be found at the end of this Permit Application.

Erosion and Sediment Control (ESC) Plan Requirements:

- A designated stabilized construction access/egress is required wherever traffic will be entering and leaving the project site.
- Off-site tracking of materials is prohibited. Sweeping or other removal of sediment and debris is the only acceptable method to clean construction site access. Washing or spraying with water is prohibited.
- Stabilize soils during and after project activities, including disturbed areas and stockpiles.
- Install erosion and sediment controls.
- Control dust by using water, mulch, erosion control blankets, or other practices.
- Control and properly dispose of pollutants such as demolition debris, waste materials, oils, greases, concrete wastes, and chemicals.
- Designate a concrete and vehicle wash out area if needed. Properly dispose of waste.
- Inspect ESC practices weekly and maintain as needed.

Utilize other Best Management Practices (BMPs) and ESC practices as needed.

ESC Map Requirements - Medium Project	
Please provide a separate site map of the project that includes the General, Grading Plan, and ESC Plan items listed below. Indicate non-applicable information below as "N/A".	
General	
	North Arrow
	Property lines and project clearing limits
	Locations of existing storm drains, culverts, and other stormwater control facilities
	Locations of roads, including street names and nearest cross street names
	Locations of existing structures, such as houses, shops, etc.
Grading Plan	
	Approximate slope and contours before and after grading
	Direction of stormwater flow before and after major grading activities
	Cut and fill slopes indicating top and bottom of slope catch lines
ESC Plan	
	Locations of adjacent surface water bodies, including streams, wetlands, drainage draws, etc. Account for stormwater running onto your property from adjacent properties.
	Locations of erosion and sediment control BMPs. Some examples of BMPs are: ▪ Silt fence ▪ Storm drain inlet protection ▪ Stabilized construction entrance(s) ▪ Designated wheel wash and concrete washout areas
	Location of off-site and on-site soil and topsoil stockpile, stored materials, waste storage, borrow areas, and vehicle/equipment storage areas

Applicant Agreement:

By signing this application, the applicant/owner attests that the information provided herein, and in any attachments, is true and correct to the best of his/her knowledge. Any material falsehood or any omission of a material fact made by the applicant/owner with respect to this application may result in this permit being null and void.

I further agree to save, indemnify and hold harmless the Asotin County Regional Stormwater Program (Program) against all liabilities, judgements, court costs, reasonable attorney’s fees and expenses which may in any way accrue against the Program as a result of or in consequence of granting this permit.

I further agree to provide access and right of entry to the Program and its employees, representatives or agents for the sole purpose of application review and any required inspections. Access and right of entry to this property shall be requested and shall occur only during regular business hours.

I further certify that I am the major property owner, authorized agent, or officer of the corporation owning property described in the attached application and I have familiarized myself with the rules and regulations of the Stormwater Construction and Post-Construction Ordinance with the respect to making this application and the statements, answers, and information contained therein are in all respects true and correct to the best of my knowledge and belief. Further, I possess full legal authority and rights necessary to exercise control over the subject property in regards to the implementation of the stormwater construction permit.
